## DETAILED ACTION

### *Election/Restrictions*

1. Newly submitted claims 37-38 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: New claims 37-38 are directed to a reactor apparatus which are different from original claimed reactor apparatus in that they have different effects as the original claims recite an undercut trough upon which an annular film is formed and the new claims 37-38 does not.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 37-38 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

***Claim Rejections - 35 USC § 103***

Art Unit: 1753

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1-33 stand rejected under 35 U.S.C. 103(a) as being unpatentable over UMETSU (4,627,803). The reference is applied for the same reasons as of record. The further difference between the reference and the claims are the intended use of the apparatus. The subject matter as a whole would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified the reference's teachings because it has been held on the intended use of a device that "apparatus claims cover what a device is, not what a device does", *Hewlett-Packard Co. v. Bausch & Lomb Inc.*, 15 USPQ 2d 1525.

***Allowable Subject Matter***

4. New claims 34-36 are allowed.

5. The following is an examiner's statement of reasons for allowance: Because the claims have the recited structures of the plurality of support elements and a

processing unit in combination with other recited structures as claimed in claims 34-35; and the recited structures of a rotary impeller in combination with other recited structures as claimed in claim 36.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Response to Arguments***

6. Applicant's arguments filed March 18, 2004 and April 12, 2004 to claims 1-33 have been fully considered but they are not persuasive because of the rejections as set forth in the paragraph above.

#### ***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**.

See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
